### **My Story**

I had heard that there were large amounts of trout in this stream. I went to investigate and all the necessities for a healthy trout population were there - clean, cool water, food, shade, and plenty of hideaways. But, I fished here for a weekend, and did not see a single trout. There were plenty of sunfish in the shallows, but not a single trout. I left quite bummed, and if any readers of this article have ever visited this locale and would like to give me a tip or two, feel free to tell me.
