Fishing Report

My Story

Chism North Park is a 20ish acre public lake in east Wichita. Despite the best efforts of KDWP employees, heavy pressure has degenerated the fish population to pittiful means. Catfish are pretty much the only thing worth fishing for but a stray crappie or two is not aout of the question. The lakes most prolific specie is gizzard shad, and they show themselves in great numbers during spring and fall turnover when their suffocated corpses white out the bank.
